Volkswagen VW T5 T5.1 T6 Transporter Black Rubber Dash Trim Seal Upgrade Windscreen Gap Filler Mod Guard Install Instructions Guide

by x8rltd

The Problem

The void between the windscreen and dash traps objects making removal difficult.

These vehicles feature an unfortunate gap between the dash and the front windscreen, inevitably over time this recess devours pens, receipts, coins etc as they slide in to this gap. These are then very difficult to extract and cause rattles and squeaks whilst driving.

Symptoms of the fault

Fit our high quality perfect profile trim to fill this void.

Install our rubber trim and prevent objects sliding in to the void. OUR rubber trim is purposely designed and extruded for this application.

Constructed from a UV stable Black colour to match OEM design.

Our trim comes pre-cut to fit the void. Being our design, we have extruded the trim to the perfect profile to sit between the dash and windscreen.

Pens, credit cards, parking passes, screws, coins (we've even heard of a wedding ring!) lost in to the void between the windscreen and the dashboard.

Vehicles affected and compatibility

VW Volkswagen Transporter T5 Models 2003-2015.

VW Volkswagen Transporter T5.1 Models 2010-2015.

VW Volkswagen Transporter T6 Models 2015-Present.

Our solution

Please check out our amazing feedback we produce 100,000's of meters of extrusion each year with perfect feedback.

Filling this void with our trim can also help sound deadening, reducing engine noise in the cabin.

Install is very easy and can be done in seconds, no tools and no adhesive required just push fit, please check out our video and install instructions.

You will receive

1 length of our high quality rubber trim.

<https://youtu.be/o59rY3-cBlI>

Step 1: Push Our Trim in to Position.

Note the orientation in our images, push the trim in to the recess. Push along the length of the windscreen. If the trim overlaps at the end cut to length with some sharp scissors and push trim in to position.

This completes the repair. If you need any further guidance on this install or would like to purchase the parts shown please call us on +44 01843 446643 or email us at sales@x8r.co.uk.

Please also check out our instruction guide on YouTube. www.x8r.co.uk Installation is carried out at installers risk, if unsure please contact us or a professional, X8R Ltd cannot be held responsible for any adverse result of installing this product or any injuries caused by install, if in doubt ask a professional.
